

# MODULE 1

## TIME TO START

The training module “Time to start” will take place in five regions and will cover topics such as: team up, presentation skills, develop solutions, and product prototype. Entrepreneurial competences: entrepreneur personality, self-confidence, opportunity finding, moderate risk taking, decision making, business structures and legal aspect, persistence, creativity rules and tools, ideas generation and selection, responsibility acceptance, team work commitment.

- **Five locations**
- **Weekends during February 2019**

An entrepreneur can be most successful when he develops solutions. By this, he becomes the expert of his own product and most of the time, he is his own customer prototype. Participants define their problem and conclude the solution, which in turns lead to the product they want to develop.
